

The Greens at Greenwich

Excellence in Dementia Care

To Our Community Friends and Families:

We wanted to reach out to you with reassurance and help during this challenging time as we, together, combat COVID-19.

At The Greens at Greenwich, our infection control protocols were implemented swiftly and in conjunction with federal and local health officials. Many of these measures were initiated before advisement and are more stringent than public health regulation. As an example, only essential caregivers are allowed to enter our Campus facilities and these individuals are thoroughly screened.

We continue to accept new residents into our communities but only after a thorough assessment and COVID-19 screening process is completed.

These are uncertain times but, at present, our residents are enjoying engaging activities, exquisite food, ample supplies, and compassionate care - all serviced by a healthy, full and amazing workforce.

With 20 years as a community partner, The Greens at Greenwich is committed to doing our part to help our neighbors and local seniors.

We are hosting a remote call-in webinar each Tuesday beginning March 24th at both 2:00 pm and 6:00 pm to cover the status of COVID-19 in our facilities, in our local area and measures that we are taking to protect our seniors. All information will include the latest from federal and local health officials. You may call in at these times to:

Phone number: 475 277 2700

Access code: 922537

Additionally, If you or someone you know is aware of a senior who needs assistance, please call **203-531-5500** and ask to speak with one of our team members. We are here to help.

May this message find you in good health and enjoying the company of loved ones.

Yours Sincerely,

Maria Scaros
Executive Director
The Greens at Greenwich

Ronald Bucci
Senior Executive Director
The Cannondale Campus & The Greens at Greenwich
