

The Greens at Greenwich responds to The Novel Coronavirus / Covid-19

Swiftly and Responsibly

March 12, 2020

The Greens at Greenwich remains committed to taking swift and effective measures regarding all public health concerns, including The Novel Coronavirus / COVID-19. To date, there are no known cases at the Greens.

We have met with the local health department and you should be assured that we have adequate supplies, effective staff education and appropriate policies to deal with COVID-19.

With recommendations from the World Health Organization (WHO), The Center for Disease Control (CDC), The CT Department of Health (DPH), and our Local Health Department, we have implemented extensive infection control measures including the restriction of visitors and vendors in order to protect the health and safety of our residents and staff. We continue to reach out to families and have set up communication venues for them to stay in touch with their loved ones.

We encourage our friends and neighbors to protect themselves and stay informed.

The Connecticut DPH has set up resources available 24/7:

Call 2-1-1 and Text “CTCOVID” to 898211 or visit the State of Connecticut or Federal (CDC) websites at:

www.ct.gov/coronavirus and www.cdc.gov/ncov , respectively.

Sincerely Yours,

Maria Scaros
Executive Director
