This month, we are excited to highlight **Melodies with Eric**, a meaningful and engaging music therapy program led by Eric Lebowitz, MT-BC, LCAT, a Board-Certified Music Therapist and Licensed Creative Arts Therapist. Through live music, singing, rhythm activities, reminiscence, and interactive musical experiences, Eric creates an uplifting environment that encourages connection, self-expression, relaxation, and joy among residents.

With over 10 years of experience working with seniors and care communities, Eric's sessions are thoughtfully designed to support emotional well-being, social engagement, and meaningful moments through the power of music. Residents look forward to each visit as they sing along to familiar favorites, share memories, and enjoy the positive energy that music brings to our community.

A message from Eric

Lebowitz decade, I have provided music therapy services to senior living communities, and this work is truly my passion. Music creates meaningful moments of joy, connection, and self-expression while helping reduce isolation and encourage social engagement. Seeing residents smile, sing along, reconnect with memories, and feel valued is one of the most rewarding parts of what I do. I feel fortunate to provide groups at The Greens and am grateful to be part of such a compassionate community. Thank you for the honor of being named Program of the Month."
